Professional Certificate Program

AI Governance, Policy, Strategy & Secure Architecture

**The Complete AI Blueprint for
Professionals**

0

Lead AI with Confidence

Build the confidence to lead AI initiatives responsibly from use-case selection and governance to risk management, security controls, and high-level architecture decisions.

This program is designed for professionals who need the full picture of AI without deep coding, but with practical, real-world frameworks, templates, and hands-on exercises you can apply immediately in your organization.

The Committed, Flexible & Focused Learning

12 Sundays

Designed for busy professionals, this fully online certification program maximizes your time.

5 Hours Per Day

Dedicate just four focused hours each Sunday over eight weeks to master AI governance without disrupting your workweek.

Fully Online

You will learn interactively from anywhere and get a TechNeura Academy Certificate, an industry-recognized credential that validates your strategic expertise and elevates your leadership profile.

Certificate

From Vision to Execution

This journey equips you with the strategic foresight and actionable frameworks required to architect, govern, and deploy AI initiatives safely.

You'll move from learning to leading, with a comprehensive, ready to execute blueprint for your organization.

| What you will be able to do by the end

- 1.** Evaluate AI use cases and define value, risks, and feasibility for your organization.
- 2.** Establish AI governance structures: roles, committees, policies, and decision workflows.
- 3.** Apply practical AI risk management covering bias, privacy, security, safety, and compliance.
- 4.** Understand modern AI patterns (GenAI, RAG, agentic workflows) at a conceptual level.
- 5.** Design secure AI deployments with guardrails, access controls, monitoring, and incident response.
- 6.** Conduct vendor and third-party AI due diligence with confidence.
- 7.** Navigate global AI regulations and align with emerging frameworks (EU AI Act, NIST AI RMF, ISO 42001).
- 8.** Produce a capstone deliverable: an end-to-end AI governance + architecture plan for a real use case.

Strategic Knowledge Core

Dive into a comprehensive curriculum built for immediate enterprise impact.

From crafting the initial business case to securing complex deployments and managing vendor risk, these core modules deliver the exact frameworks required to navigate the AI landscape with absolute confidence.

| Key Topics Covered

- ➔ AI Strategy & Business Case Development
- ➔ Risk Management & Compliance
- ➔ Trust, Safety & Responsible AI Ethics
- ➔ GenAI Security Risks & Mitigation
- ➔ AI Model Evaluation & Monitoring
- ➔ Vendor Governance & AI Procurement
- ➔ AI Governance Frameworks & Policy Design
- ➔ Privacy, Data Protection & Consent
- ➔ Secure AI Architecture & Deployment
- ➔ RAG & Agentic Systems (Conceptual)
- ➔ Auditability, Explainability & Transparency
- ➔ Operating Model & Implementation Roadmap

Actionable AI Mastery

This program cuts through the noise, delivering a comprehensive, expert-led experience that requires absolutely no coding.

You will walk away with actionable templates, deep industry relevance, and a concrete governance plan strictly aligned with the latest global regulatory standards.

Holistic Coverage

We bridge the gap between strategy, governance, ethics, and operational security, ensuring your AI initiatives drive ROI while mitigating systemic enterprise risks

No Coding Required

You will master the business frameworks and risk models required to lead technical teams effectively, focusing entirely on organizational impact rather than engineering syntax

Practical & Actionable

You will leave the program with concrete deliverables, including ready to use governance templates and a complete, actionable roadmap to safely scale AI in your enterprise.

Expert Led & Interactive

This is an active boardroom environment, not a passive recorded lecture, allowing you to pressure test your strategies with industry experts and executive peers.

Industry Relevant

The curriculum is directly mapped to the latest compliance mandates, including ISO 42001, the NIST AI RMF, and the EU AI Act, ensuring your organization stays ahead of complex global regulations.

Who Should Attend

This elite cohort is meticulously curated for professionals steering the future of enterprise AI.

If you are tasked with managing risk, driving digital transformation, or architecting secure technological frameworks, this room is built for you. No coding background is required, just the mandate to make strategic high-level decisions.

- ✓ C-suite Executives, business leaders, and digital transformation sponsors

- ✓ Risk, compliance, audit, and legal professionals

- ✓ Product owners, business analysts, and program managers

- ✓ IT managers, enterprise architects, and solution architects

- ✓ Cybersecurity and data protection professionals

- ✓ Government officials and public sector decision-makers

- ✓ Anyone responsible for AI-related decisions in their organization

Program Delivery Format

Built for busy professionals, this online program delivers maximum impact without disrupting your week.

Engage in live sessions, apply practical templates, and complete a strategic capstone project to earn a credential that powerfully validates your expertise.

Duration

12 Sundays
Starting From
24th May 2026

Schedule

Sunday Mornings
5 Hours per Session
(60 Hours Total)

Mode

Fully Online via
Zoom, LMS access
provided

Materials

Frameworks,
guided exercises
& case studies

Assessment

Capstone project:
AI governance +
architecture plan

Certification

Certificate of
Completion from
TechNeura Academy

Guided by Industry Leaders

Your journey is led by experienced CXOs and technology strategists.

They go beyond academic theory, delivering real world insights and battle tested frameworks used to secure mission-critical digital transformations

Neranjan Dissanayake

BSc Eng(Hons) UOM, Applied Agentic AI for Organizational Transformation MIT, AIGP-IAPP, CDPSE-ISACA, CSSLP-ISC2, CISSP-ISC2, PMP

Ashwini Natesan

B.A.,LL.B (Hons), Law, Diploma in International Business, Diploma in Commercial Arbitration, LL.M, International Business Law - NUS

Asela Waidyalankara

Bachelor of Business Administration (BBA), Business Administration - University of Staffordshire, PMP, Business Administration and Management - Harvard University

Secure Your Seat Now

To ensure every participant receives the highest level of meaningful interaction the enrollment for this exclusive certification program is limited.
